

Appendix I – Summary of changes to the SCI

Three types of changes have been made to the Statement of Community Involvement. They are;

1. Insertion of paragraph 2.9:

2.9 *There may be consultations where it may not be possible to provide access to hard copies of documents due to circumstances beyond the Council's control. A particular example being a global pandemic where the Council is unable to provide access to hard copies of documents due to restrictions on movement imposed by the Government or in order to protect the physical wellbeing of its employees. Where this is the case all other available channels of communication will be used in order to promote and deliver an effective consultation and the Council will provide notice on its website of the methods of communication being used in a particular consultation.*

2. Updating statements regarding the locations of deposit points with the additional sentence:

In times of crisis (e.g. Global Pandemics) it may not be possible to provide hard copies to Deposit Points (please see paragraph 2.9).

3. Updating the contact email address to planningpolicy@warwickdc.gov.uk
