

**Summary of Comments made on the Cabinet Agenda for
Wednesday 15 May 2024**

4. Newbold Cycle Trails

The Overview & Scrutiny Committee held a good discussion regarding the process of procurement and how the contract would be managed moving forward.

The Committee has asked for Cabinet to consider the following points:

- the procurement process should include how resident feedback would be integrated and looking at measurables within the contract e.g. promoting courses and how often they are open;
- learning from previous procurement exercises should be included;
- the social value element should be a factor to be considered in determining the successful tender;
- at paragraph 1.6.7 in the report the first bullet point should stop after "reputational damage"; and
- the Committee asked to ensure that the tender is well publicised, particularly amongst local businesses, to maximalise opportunity to respond.
