Below is an extract from the draft minutes of the Barford Sherbourne & Wasperton JPC held yesterday

Barford-Wasperton Parish Boundary

217 The current inter-parish boundary west of Wellesbourne Road follows the line of an old culverted stream until it reaches the river but it is no longer clear on the ground precisely where the boundary lies as the line of the culvert has been completely obscured by the new housing development. It seems probable that some of the new houses lie on the Wasperton side of the boundary and certainly the second-hand car dealer's garage and the Barford Exchange office development lie in Wasperton.

218 It is suggested that the boundary continue on the east side of Wellesbourne Road until it reaches the bypass. It could then either go north on the bypass to meet the current boundary, though the precise location of that is not discernable on the ground, or go direct to the river. The only natural feature for the boundary to follow would be the stream that flows into the river just south of Forge Cottage but that would entail that house coming into Barford Parish.

219 The JPC recommended that the Parish Boundary between Barford and Wasperton west of Wellesbourne Road be amended so as to include all of the houses on Bremridge Close, the second-hand car dealer's garage and Barford Exchange.

Please advise me how this can be brought about.

James
