## **2 Alternative Options available**

2.1 Strategic options were evaluated as part of the work done for the public consultation and can be seen at the Hub. Both Councils have made the decision to seek a merger and previous decisions have agreed plans for service integration and HQ accommodation.

## **3 Consultation and Member's comments**

3.1 The purpose of this report is to advise Members of current progress and to enable them to make comments.

## **4 Implications of the proposal**

### **4.1 Legal/Human Rights Implications**

4.1.1 As so decided by Members, and if so then by the Government, the proposal will have very significant legal implications in that both SDC and WDC will cease to exist and a new legal identify will come into being.

### **4.2 Financial**

4.2.1 This report itself does not impact on the budgetary framework or budget, but the subject matter of the report will have an impact as was documented in the report considered in December and in the budget, proposals being considered in February.

### **4.3 Council Plan**

#### **4.3.1 Fit for the Future (FFF)**

4.3.2 The Council's FFF Strategy is designed to deliver the Vision for the District of making it a Great Place to Live, Work and Visit. To that end amongst other things the FFF Strategy contains several Key projects.

4.3.2 The FFF Strategy has 3 strands, People, Services and Money, and each has an external and internal element to it, the details of which can be found on the Council's website. The table below illustrates the impact of this proposal if any in relation to the Council's FFF Strategy.

#### 4.4 **FFF Strands**

##### **External impacts of proposal(s)**

**People - Health, Homes, Communities** - The report will have no direct impact for the community at this stage, but the overall programme will assist with the ability to continue to provide services.

**Services - Green, Clean, Safe** – As above.

**Money- Infrastructure, Enterprise, Employment** – As above.

##### **Internal impacts of the proposal(s)**

**People - Effective Staff** – The joint work will offer better protection to staff than the alternatives and by being part of a larger workforce it will offer more opportunities for training and progress.

**Services - Maintain or Improve Services** – The joint work is intended to better enable the two Councils to maintain or improve their services.

**Money - Firm Financial Footing over the Longer Term** – It is intended that the work does provide for a firm financial footing over the longer term.

**Supporting Strategies & Changes to Existing Policies** – The joint work will impact on the two Council's policies. Part of the Programme of work will be to bring the policies of the two Councils into line over the period to 2024 and in some cases beyond that.

#### 4.5 **Environmental/Climate Change Implications**

- 4.5.1 The Councils have agreed joint ambitions on Climate Change and a shared climate change action programme (CCAP). The CCAP provides the basis for joint working to reduce carbon emissions and to enable our communities, economy, and environment to adapt to climate changes. This approach recognises that responses to climate change should not be constrained by administrative boundaries. Furthermore, a single entity will enable a deeper review of the Councils' building assets to be undertaken with the potential to achieve additional carbon reduction measures. Joint working has the potential to reduce carbon emissions from our buildings by enabling shared use of assets and combined approaches to planning and procuring decarbonisation projects.
- 4.5.2 Work is currently being undertaken to complete a joint carbon baseline exercise to show comparable and joint carbon emissions data for WDC and SDC over the last three years. This data will enable prioritisation to be more effective and will ensure progress on decarbonisation can be reported accurately on a regular basis.

#### **4.6 Analysis of the effects on Equality**

4.6.1 A high-level impact statement prepared in conjunction with public consultation can be seen on the consultation website and will also be published on the South Warwickshire Together Hub.

#### **4.7 Data Protection**

4.7.1 Not applicable.

#### **4.8 Health and Wellbeing**

4.8.1 The development of the South Warwickshire Place Partnership (Health) within the overall new structure for the sub region will greatly assist both Councils ability to help improve health and well being for the area. As organisations the Councils are also seeking to integrate their approaches to health and safety reporting and response for staff. Both currently offer similar support packages to staff, and this will be integrated and standardised over time.

### **5 Risk Assessment**

5.1 An updated risk register for the joint work is being developed and is attached as Appendix 1 for consideration and comment.

5.2 It is worth noting that some risks for Council partnerships elsewhere in the country have been realised. Just after the New Year a public announcement was made that in Hampshire two Councils – East Hampshire and Havant which had been in a partnership for 12 years were going separate ways. Currently they have a single management team and a single Chief Executive and had merged some but not all services and no political merger. A difference in strategic priorities is cited as the reason though behind this no doubt sits some other dynamics relating to style and approach. Some other partnerships have also broken up recently – Cherwell and Oxfordshire County Council; Gloucester City Council and Gloucester County Council; South Holland District Council, Breckland District Council, which has been replaced by a tripartite partnership of three South Lincolnshire District Councils.

5.3 Lack of political integration inevitably leaves a significant risk to the partnership of the two Councils.

### **6 Conclusion/Reasons for the Recommendation**

6.1 This report sets out current position on the work being done jointly with SDC.
