WARWICK PARTNERSHIP PROPOSED NEW STRUCTURE April 2009

From May 2009, Warwick Partnership structure consists of:

1. New **Stakeholder Advisory Forum** – with a broader membership than the Executive Group, designed to take a strategic overview and hold the Partnership to account;
2. A refreshed **Executive Group** – with revised membership and a tight focus on achieving the combined Partnership Delivery Plan, including District responsibilities for delivering the County Local Area Agreement;
3. A clarified **relationship with the community** - community representative bodies will be invited to nominate individuals to join relevant components of the Partnership and will have a negotiated brief so that their role is clear;
4. A revised **thematic structure** – with a theme group dedicated to each of 3 priority areas:
 - Health and Well-being (existing group) – county involvement to be explored;
 - Housing (revised group with a broader remit than just physical build) – chaired by Warwick District Deputy CEO, adult and social services to be invited to join;
 - Economy, Skills and Employment (plus lead responsibility for recession planning. (New Group). To be chaired by District Economic Development Manager with county input;and a 4th workstream for Safer Communities led by Chief Inspector Martin McNevin alongside the work of the South Warks. CDRP;
5. A defined relationship with other theme groups (to be known as “**Associate Theme Groups**”) e.g. Culture and Leisure, Children and Young People, Community Learning etc., with clear methods for them to find out about and contribute to work on the priority themes;
6. A **Theme Co-ordination Group**, comprising of theme leads for both Priority and Associate Groups to ensure that Delivery Plans are increasingly cross-cutting, tackling the causes rather than symptoms of issues. The Co-ordination group will also review performance management to ensure that the Partnership is on track with delivery against targets and to devise joint solutions to any problems that are proving hard to tackle;
7. A clarified relationship with the **county LSP structure**, so that activities can be better co-ordinated and information more freely available;
8. Periodic use of **Task and Finish Groups** appointed by the Partnership Executive Group to undertake specified, time limited pieces of work.
