

Council 19 February 2025
Labour/Green Budget Amendments

1. Make a one off allocation of £95,000 to be spent in conjunction with Town Councils over 2 years to support our four town centres with a focus on events to increase footfall. Allocation to be made from the Community Projects reserve and in the context of the emerging events strategy.
2. Work with SWFT and WCC to understand the funding need for Lillington Health Hub and feedback to Cabinet and ward members by end of March 2025.
3. Welcome the willingness of Kenilworth Town Council to support the renovation of the Skate Park at Castle Farm and the work they have already done with users. Ask green spaces to bring forward the business case to Cabinet for the project and investigate funding options once the Castle Farm Play Area works have been completed.
