How do I enter my electorate data?

- 1: Type in all your data, by polling district, in sheet "Electoral data". Use the left-hand table, which is columns B to H.
- 2: It's important that every polling district is listed separately. Use your polling district code to identify polling districts in column B. If you have another description, or something else that you think would be helpful in order to identify the area, put this in column C.
- 3: If the polling district is in a parish, fill in the columns for parish (column D) and parish ward (column E). If there are no parish wards in the parish, or the polling district is in an unparished area, leave this blank.
- 4: Fill in the borough ward name in column F.
- 5: Enter the current electorate figures for each polling district. Then enter the figures which are predicted for five years from the end of the review. Although we recognise that you will be using a particular formula or method to work out these projections, make sure that the figures are rounded to a whole number before entering them in the spreadsheet. All polling districts should contain an approximate number of whole electors rather than fractions of electors. .

How do I check my data?

- 1: If you would like to check your data, use the table on the right. Above the right-hand table is a box called "Check my data". This shows you the total number of electors in all the polling districts. If this isn't right then there is a mistake in the left-hand table.
- 2: Once you have entered all the electoral data in columns B to H, then put in the names of the wards in column J. The spreadsheet will match what you type in column J to what you put in column F. It will add up the electorates of the polling districts in each ward.
- 3: entered, you will be able to see whether the ward is over-represented or under-represented, and by what percentage. (This will only work when the number of councillors has been filled in for all wards.)

Parish information

- 1: It is important that we receive the parish information in the 'Individual Parishes' worksheet. This information is vital for the audit and order-making processes and should be returned to LGBCE as quickly as possible.

Electoral data - Existing Ward Boundaries

Using this sheet:

Fill in the cells for each polling district. Please make sure that the names of each parish, parish ward and unitary ward are correct and consistent. Check your data in the cells to the right.

Scroll right to see the second table

What is the polling district code?	Is there any other description you use for this area?	Is this polling district contained in a parish? If not, leave this cell blank.	Is this polling district contained in a parish ward? If not, leave this cell blank.	What borough ward is this polling district in?	What is the current electorate?	What is the predicted electorate?

All parish electorates by individual parish

Using this sheet:
Use this sheet to show the number of parish councillors. Put down all parishes, no matter how big or small.

Type in the name of the parish. Make sure it is exactly the same as it appears in the sheet "Electoral data".	Does the parish have a parish council?	Does this parish have wards? Write down the names	Is this parish part of a group parish council?	How many parish councillors does this parish, parish ward or group of parishes have?	In which year was the last election?	In which year is the next election?	Has there been an inaugural election or a by-election in the parish in the last 4 years?	Are any parish orders available? If so, please send them to us.
Parish	Parish council	Parish wards	Part of a group?	Councillors	Last election	Next election	Elections/by elections	Parish orders available?
Example Parish A	Parish council name	Parish E ward 1 Parish E ward 2	Parish group 1	7	2008	2013	Yes	Yes
Example Parish B			Parish group 1	2	2009	2014		Yes
Example Parish C			Parish group 1	1				Yes
Example Parish D			Parish group 1	3				Yes
Example Parish E				9				
				5
