The applicants have appealed against the decision of the Local Planning Authority and the appeal will be heard at a public inquiry from 13 July 2021. As part of the inquiry process a signed Section 106 agreement is required in order to secure the contributions in the event that the appeal is allowed. This has to be submitted by 6 July 2021, prior to the next meeting of the Committee.

Officers do not have delegated authority to sign a Section 106 Agreement where there is no Committee Resolution to grant planning permission for the development.

The authorisation of the signing of a Section 106 agreement does not in any way reflect Committee's views on the merits of the proposed development it merely ensures that, in the event the appeal is allowed, appropriate infrastructure contributions are secured to mitigate the impact of the development and minimise any risk of that not being the case..

CONCLUSION

This report therefore seeks Authority from the Planning Committee to delegate authority to officers to continue to work with the appellant on finalising and signing the Section 106 Agreement in the terms outlined above in order to ensure that in the event that the appeal is allowed, all required infrastructure and contributions are secured.
