

Addendum to Executive Item 11

Pump Rooms Gardens Parks for People Project

Please note that the following risk has been added to section 6 of the above report and should be taken into account when considering the recommendations:

6.5 Although discussions are ongoing with Warwickshire County Council (WCC) to enter into a legally binding agreement with WDC, permitting WDC to fulfil its obligations under the Terms of Grant in respect of the path and bridge, this agreement has yet to be finalised. With support from Warwickshire County Council officers and a draft agreement already written, it is anticipated that this agreement will be in place shortly before the formal permission to start.
