The Council was aware of other groups who used public open space for events and the Council would be approaching the organisers of these to ensure appropriate authority and payments were in place.

The Portfolio Holder for Neighbourhood Services, Councillor Shilton, presented the Chairman with a cheque for £4,445 from the Institute of Cemetery and Crematorium Management. This money was from the generosity of bereaved families agreeing for their loved ones orthopaedic implants and other metals recovered after cremation to be recycled. 105. **Council HQ Relocation and Replacement Convent Garden Car Park Project**

The Council considered a report that set out the current position regarding the relocation of the Council HQ and sought approval from Council that it would accept the potential liability for the expenditure associated with Phase 1 of the Project up to a maximum sum of £1,175,000 in the circumstances where the Council unilaterally withdrew from, or varied the terms of, the project, as further described in the report to the Executive on 20 April 2016.

Executive and Council had received a series of reports, over a period of years, examining the principle of a relocation of the Council's HQ offices from the current Riverside House site. The current HQ building was larger than the Council needed, costly to adapt to facilitate modern ways of working, difficult to modify to generate revenue savings and in need of considerable capital investment that was currently unfunded. The previous reports, therefore, considered how relocation could assist the Council to deliver a number of complementary objectives: the realisation of revenue savings already built-in as commitments within the Council's Medium Term Financial Strategy; the avoidance of future, unfunded, capital investment in the current building; the use of a relocation to support the local economy and/or stimulate new development within Leamington; redevelopment of the Riverside House site as a brownfield housing development as included within the modified Local Plan; and to ensure the Council had an HQ asset that was fit for purpose and able to support service delivery in a rapidly changing environment.

Since its inception and initial approval by Council, the relocation project had been progressed by officers working in conjunction with the Warwick Limited Liability Partnership (LLP). The LLP, formally the PSP Warwick LLP, was established by the Council in 2013 as a joint venture vehicle with Public Sector Partnerships (PSP) in order to assist the Council to manage and develop its asset portfolio and to unlock complex regeneration and development projects such as this one.

In September 2015 the Executive examined a shortlist of potential relocation sites within Royal Leamington Spa, including an option to refurbish the existing

HQ building, and determined that its preferred option was the comprehensive redevelopment of the current site of the Council's Covent Garden car parks (surface and multi-storey) which would include the construction of the Council's new HQ offices and new car parking in lieu of the existing provision. Executive agreed that the LLP should undertake a detailed feasibility and viability assessment of the preferred option with a further report on the outcome of these studies, including an external validation of the LLP's proposals, being brought back to members. It should be noted that the relatively recent requirement to consider the replacement of the Covent Garden multi-storey car park had added another key dimension and focus to this overall project.

Attached was the report to Executive entitled "Council HQ Relocation and Replacement Covent Garden Car Park Project" (Part A, public report). This Report set out the outcomes of those detailed assessments and proposed that the project should be approved and progressed to a delivery phase. It also included a request for temporary project resource to work with the LLP on the next stages of the project, in accordance with the principles underpinning the new structure for project management, as approved by Employment Committee in March. Additionally, it was proposed to establish a members' reference group to oversee the next stages of the scheme.

Council was asked to note the Executive report because what was proposed was a major project for the Council and the local community, and in addition there were financial implications for the Council if it were to decide, at a later date, that it did not want to proceed with the project in the terms outlined in the Executive report.

There was also a private and confidential Part B report to the Executive on the same item, which explained the legal and commercial considerations in more detail.

Councillor Mobbs proposed the recommendations in the report, which were duly seconded,

Councillors Barrott, Mrs Falp, Davison, Quinney, Mann, Boad, Gifford, Thompson, Miss Grainger, Rhead, Grainger, D'Arcy, Whiting and Mobbs addressed the Council on this matter.

**Resolved that**

- (2) the potential liability for the expenditure associated with Phase 1 of the Project up to a maximum sum of £1,175,000 in the circumstances where the Council unilaterally withdraws from, or varies the terms of, the project, as further described in the Executive Report, be accepted.

(Councillor Barrott left the meeting during this item)
