

- 4.63 In response to concerns by residents the Council agreed an Article 4 Direction in April 2012 the purpose of which was to remove permitted development rights, in Royal Leamington Spa only, for a change of use from a single dwelling to a small HMO (uses class C4). The need for planning permission would enable the Council to control further concentrations of small HMOs since nearly 81% of HMOs in the District comprised shared houses (use class C4).
- 4.64 The purpose of this policy is to control the location of new HMOs in order to prevent these uses from either exacerbating existing concentrations or leading to new concentrations. Additional HMOs can impact on local amenity where they lead to concentrations at either the neighbourhood level or in very localised situations. The policy aims to prevent concentrations at both levels by ensuring that within a 100 metre radius of the proposal not more than 10% of dwellings are HMOs and also, at a more localised level, by preventing the “sandwiching” of a non-HMO between 2 HMOs or a continuous frontage of 3 or more HMOs. It is not the intention of the policy to restrict further growth in HMOs. The Council recognises the importance of HMOs and the private rented sector generally in the housing stock but seeks to ensure that the amenity of more settled residents is not compromised. The policy also aims to ensure that there is satisfactory provision for the storage of waste, since a house occupied as an HMO generates more waste than a family or couple. In addition, the policy also aims to ensure that new HMOs are within reasonable walking distance of a bus stop because access to public transport is essential for most University of Warwick students due to the restrictive parking arrangements on campus.
- 4.65 The policy makes exceptions to the application of the 100 metre radius test to allow for HMOs or student accommodation in areas which would not impact on existing residential areas. Since one of the main problems is anti-social behaviour and noise on routes home from the town centre, these criteria are intended to allow HMOs in locations where residential areas would not be affected. Main thoroughfares will normally be defined as A and B roads and mixed use areas are defined as areas with a predominance of non-residential uses.
- 4.66 The Council supports the provision of student accommodation on the University campus which falls within Warwick District. The number of full-time University students increased by 29% in the five years up to 2011/12. A large proportion of this increase has been in international students who are more likely to prefer purpose-built accommodation. Approximately 225 flats for students, along with some flats for staff and visitors, received planning permission in 2009 as part of the University’s Master Plan. Of these, 59 have been completed and the remainder are expected to be built in the first phase of the plan period. An additional 4,440 sq. m. of existing student accommodation is the subject of an application for redevelopment & replacement. The Local Plan allows for further expansion of the University within Warwick District and this is likely to include further accommodation for students.
