

**Summary of Comments made on the Cabinet Agenda for  
Wednesday 10 July 2024**

**4. Low Cost, Low Carbon Energy Programme**

The Committee noted the report and thanked the Cabinet members for attendance and their response to the questions.

**8. Parking Services Development – Strategy and NPP**

The Committee noted the report and asked the Portfolio Holder to be mindful of the potential impact on users by passing on the convenience charge to them; and how this can be communicated clearly to all parties. They also asked that card payment at machine continues to remain available so that there are alternative ways to pay rather than online.

The Committee asked that the proposed Parking Strategy also looks at the potential to provide high quality secure cycle parking storage as a way of encouraging modal shift.
