

**Response from the meeting of the Executive on O&S Committee's Comments
- 27 June 2018**

Items no.	5	Title	Increased Litter Bin Provision	Requested by	Whitnash Residents' Association, Labour & Green
Reason considered	<p>Green - Welcome the proposal in broad terms but would like this investment to be an opportunity to consider the design of the bins themselves. Concerns have been raised about domestic waste rapidly filling litter bins; additionally, are there suitable designs to reduce smell/flies etc?</p> <p>Note: We haven't included the recycling bins in this, as that would broaden the scope considerably.</p> <p>Labour - In order to scrutinise the assumptions, priorities and options more closely</p> <p>WRA- While fully supporting the increase in bins and collections, we would like to know how the distribution will be decided and if all the District will benefit from new bins and collections.</p>				
Scrutiny Comment	<p>The Overview & Scrutiny Committee welcomed and supported the recommendations in the report.</p> <p>Ideas were raised about using new technology where possible and providing different types of refuse bins in different areas, based on demand and use, e.g. Parade in Leamington Spa might have different requirements to quieter streets, such as Milverton Hill in Leamington Spa.</p> <p>The Committee was pleased that these proposals would cover the District.</p>				
Executive Response	<p>The recommendations in the report were approved.</p>
