SUMMARY OF REPRESENTATIONS

Royal Leamington Spa Town Council - Objection on the following grounds:

1. Breaches WDC 10% HMO rule and would impact on neighbouring amenity in terms of increased noise, rubbish and parking issues.
2. The additional front door would be out of keeping with the building's frontage on the Parade and with the Conservation Area.

WDC Conservation Officer - Following receipt of amended plans - no objection.

Public Response

1 letter received stating that applicant has no legal right to store bins and waste on the land, only right to pass and repass for deliveries and no bins are provided to residential properties on the Parade so intensification of bagged waste to rear may result in increased vermin problems.

ASSESSMENT

Impact on the character and setting of Listed Building

Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990 imposes a duty to have special regard to the desirability of preserving a listed building or its setting when considering whether to grant a planning permission which affects a listed building or its setting.

Paragraph 132 of the NPPF states that when considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation.

Warwick District Local Plan Policy DAP4 states that consent will not be granted to alter or extend a Listed Building where those works will adversely affect its special architectural or historic interest, integrity, or setting.

Warwick District emerging Local Plan Policy HE1 (protection of statutory heritage assets) states that permission will not be granted to alter or extend a listed building where those works will adversely affect its special architectural or historic interest, integrity, or setting.

The new shop front has been the subject of consultation with the Conservation Officer and following revisions to the design, the replacement shop is of a high quality appearance and meets with the requirements of the Shopfront SPD for Leamington Spa. The new shop front is an enhancement to the shop frontage on this Heritage Asset and improves the overall appearance of the Heritage Asset.

The resulting design retains the shop access to the ground floor with a separate door accessing the accommodation above. The shop front has a symmetrical appearance that relates well to the local street scene.

To the rear, a number of minor alterations are proposed including the removal of a timber, triangular canopy over the rear access door serving the ground floor retain premises.

Internally the works are minor and result in the provision of partition walls within the existing structure. No elements of historic fabric are affected by the proposed alterations and the changes are considered to respect the character of the Heritage Asset.

Overall, the new shop front is considered to enhance the appearance of the Listed Building whilst the remaining alterations are considered to preserve the character of the Listed Building.

Public representations on the use of the building as an HMO are not relevant when considering a Listed Building Consent application. Only matters relating to the impact on the character, setting and fabric of the Listed Building can be assessed.

Conclusion

The proposed works have been assessed regarding the impact on the Heritage Asset and it has been concluded that the alterations would preserve the character of the Listed Building.

- 1 The development hereby permitted shall begin not later than three years from the date of this permission. **REASON:** To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).
