Void Repairs: 187,400 (A)

There were a number extensive voids costing up to £60K, as well as high volumes of house and garden clearances.

Responsive and Out of Hours Repairs:

428,200 (A)

Response repairs have been run on the open book method commencing 2013/14, therefore costs are based on actual costs rather than a fixed schedule of rates, making unit costs less predictable.

As other open book contracts were not mobilised in time, approximately £500k worth of planned works were undertaken on this contract, only £300k has been transferred to other budgets due to the difficulty in identifying these costs.
