Additional Requirements for Food Operations

28. When street trading includes the provision of food, the Food Business Operator (FBO) must ensure that any van/barrow/vehicle or stall is sited, designed, constructed and kept clean and maintained in good repair and condition as to avoid the risk of contamination, in particular by animals and pests. Any food handler must keep a high degree of personal cleanliness, shall wear suitable protective clothing and have received suitable hygiene training. In addition the FBO shall ensure that:-

- a) appropriate facilities are available to maintain adequate personal hygiene (including facilities for the hygienic washing and drying of hands, hygienic sanitary arrangements and changing facilities)
- b) surfaces in contact with food are to be in a sound condition and be easy to clean and, where necessary, to disinfect. This will require the use of smooth, washable, corrosion-resistant and non toxic materials, unless the food business can satisfy the Authorised Officer that other materials used are appropriate.
- c) adequate provision is to be made for the cleaning and, where necessary, disinfecting, of working utensils and equipment
- d) an adequate supply of hot and/or cold potable water to be available
- e) where foodstuffs are cleaned as part of the business operation, adequate provision is to be made for this to be undertaken hygienically
- f) adequate arrangements and/or facilities for the hygienic storage and disposal of hazardous and/or inedible substances and waste (whether liquid or solid) are to be available
- g) adequate facilities and/or arrangements for maintaining and monitoring suitable food temperature conditions are to be available
- h) foodstuffs are to be so placed as to avoid the risk of contamination so far as is reasonably practicable

Furthermore, the consent holder must put in place, implement and maintain a permanent procedure based on the HACCP principles.
