19 Wychwood Close, Bishops Tachbrook, Leamington Spa, CV33 9QU
Change of use from A1 (retail) to Sui Generis (Beauty Salon) FOR Mr Alan Seunarayan

This application is being presented to Committee due to an objection from the Parish Council having been received.

RECOMMENDATION

Planning Committee are recommended to grant planning permission.

DETAILS OF THE DEVELOPMENT

The applicant seeks planning permission for a change of use of an A1 unit (hair dressers) to a sui generis use for a beauty salon on an appointment only basis. The applicant proposes that the site would be used between 09:00 and 21:00 Monday to Thursday, and 09:00 and 18:00 on Fridays, and would be closed at weekends.

THE SITE AND ITS LOCATION

The application relates to an existing A1 retail unit which is currently vacant. The application site is positioned to the west of Wychwood Close and is located within a primarily residential area, in the centre of Bishops Tachbrook. There are a limited number of off street parking spaces to the front of the site.

PLANNING HISTORY

W/03/1017 - application refused for change of use from retails to class A3 hot food take away and associated works.

ASSESSMENT

The main issues relevant to the consideration of this application are as follows:

- The Principle of the Development
- Impact on the character and appearance of the area
- Impact on neighbouring residential amenity
- Parking and Highway Safety
- Sustainability

Principle of the Development

There are no material planning reasons why a change of use from an A1 retail use to a beauty salon (sui generis use) would be unacceptable in principle in this location. Subject to an acceptable impact on nearby uses and parking which are discussed in more detail below, the change of use is acceptable in principle.

Impact on the character and appearance of the area

There are no proposed alterations to the exterior of the property, therefore, the change of use will have no impact on the street scene.

Impact on Neighbouring Residential Amenity

The application site is located within a predominately residential area, with residential flats above the unit and other residential properties within the street scene. Health & Community Protection – Environmental Sustainability Section have no objection to the proposed change of use, subject to a condition limiting the hours of use of the unit to 07:30 to 20:30 (Monday to Saturday) and 09:00 to 16:00 (Sundays and Bank Holidays), which is considered to be acceptable and would adequately protect nearby amenity. The hours the applicant has requested fits into these proposed hours of use.

Parking and Highway Safety

No off street parking provision is included in the proposal; however, this is the same as the existing circumstances for the site. The existing A1 use would require a total of 2 car parking spaces in accordance with the Council's adopted Vehicle Parking Standards guidance. The guidance states that parking requirements for sui generis uses should be dealt with on their own merits. The proposed beauty salon would have the equivalent of three treatment areas. In terms of the assessment of the parking requirement of the treatment areas, this is considered similar to the use of the unit as a hair dressers. Therefore, it is considered that the proposed development would not increase the parking requirement for the site.

The Parish Council have objected to the proposed change of use because of an existing parking problem within Wychwood Close and nearby Mallory Road. Councillors suggest that conditioning the use of the rear parking area for use of the unit, however, there are no opportunities for off street parking at the rear of the site which would allow access to the garages and for ample turning arrangements. Therefore, this is not considered to be a viable option.

WCC Highways have assessed the application and have no objection to the proposed change of use. There have been no objections received from residents in relation to the proposed development, therefore no wider concerns for parking has been received. Furthermore, during the site visit, the Case Officer noted that there was un-restricted off street parking available within Wychwood Close. As there is no increased demand on parking as a result of the proposed change of use, it is considered that there would be no impact on highway safety or public amenity which would warrant refusal of the application.

Sustainability

The proposed change of use is not likely to significantly increase the energy demands of unit and therefore no sustainability measures are required.

CONCLUSION

It is therefore considered that the proposed change of use is acceptable in principle and on balance would not have a detrimental impact on highway safety or public amenity. The application should therefore be approved.
